## Pre-doctoral Endodontics

### Guidelines for Endo Rotations Update

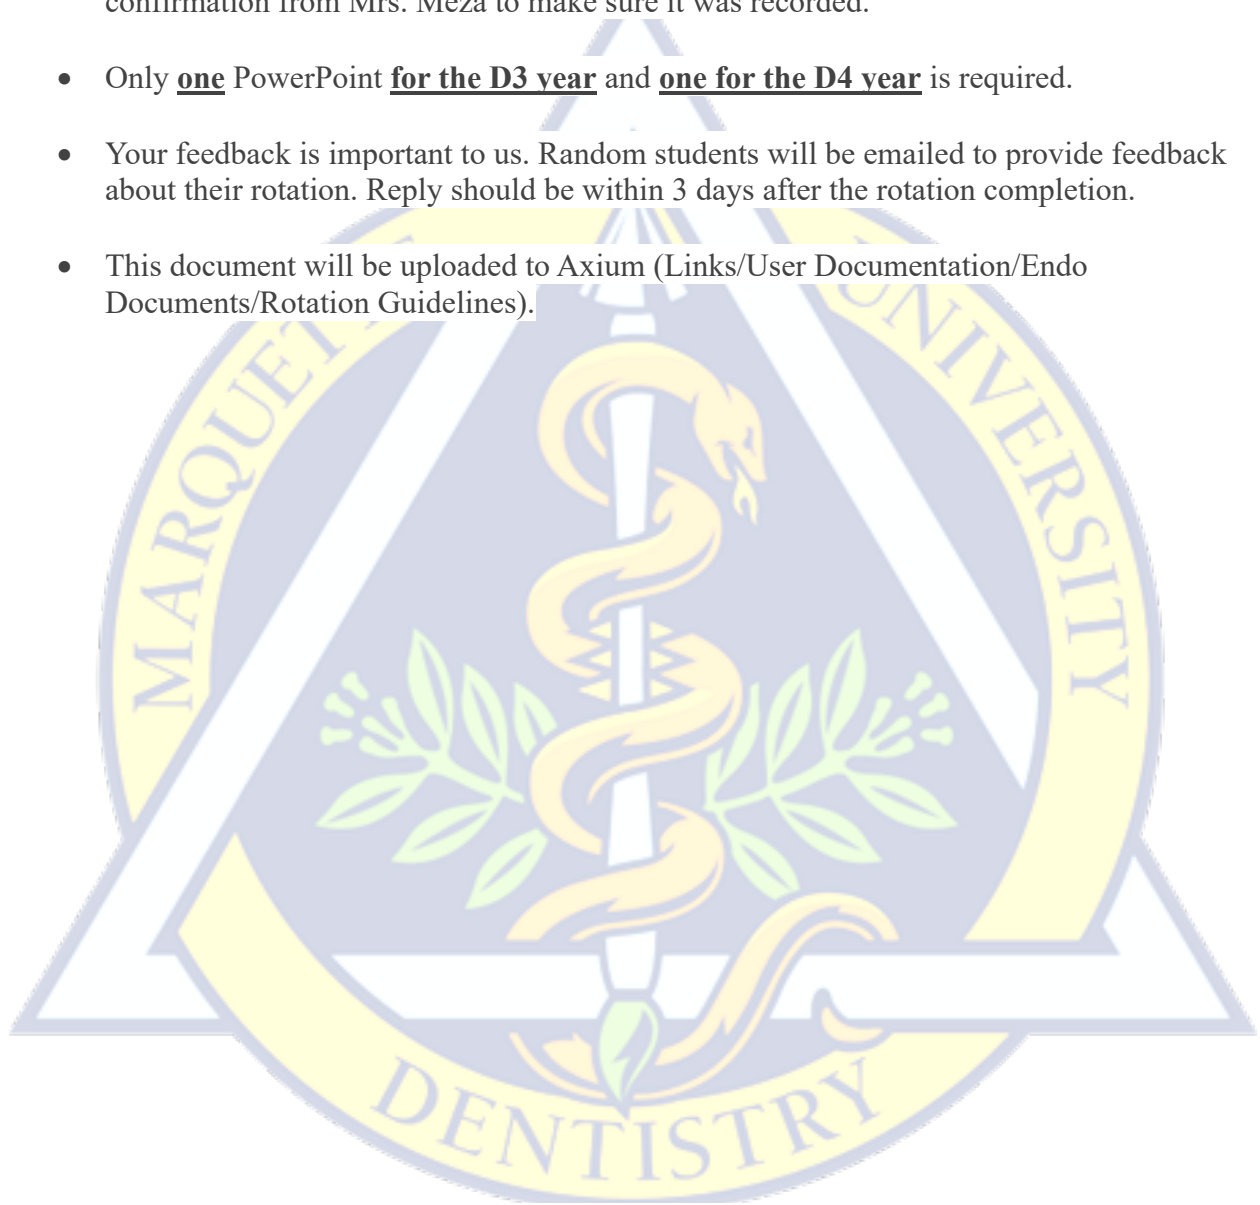

The goals of the endo rotations are to reiterate predoctoral students' knowledge and skills of the technical and procedural part of the endodontic treatment in real-life situations to deliver a safe and efficient treatment to our patients. It is the intend to expose predoctoral students to a variety and complexity of cases and to advance their knowledge in endodontics.

The following updates will be in effect immediately:

- Please sign in the new attendance sheet. Write your full name, signature and the resident/predoc student name you assisted.
  - If students are assisting residents in a consult session, they can use any of the consults for their Power Point submission.
  - You can use any rotation session for your Power Point, it is not necessarily to be a completed case. A case with at least a pulp and periapical diagnosis will suffice.
  - You can submit another Power Point from your D3 rotations, and it will be considered as your D4 requirement. Please mention this in your email to Mrs. Carmen Meza (Cc Dr. Ibrahim) to record it for your D4 requirements
  - **The assignment to a post-doc or a pre-doc student will depend on the number of cases students completed, level of competency and other points considered by the predoctoral program director.**
- Previous guidelines still in effect:**
- Students are required to attend their scheduled session from 9:00-12:00 and/or 1:00-4:00/4:30. **Attendance is required for the entirety of the session.**
  - At the end of the session, residents will provide documentation containing the necessary information for PowerPoint. The document must be submitted to a dental assistant or the coordinator at the front desk. Failure to stay for the duration of the rotation session will result in the need to repeat the rotation.
  - **Showing up late or missing a rotation without prior notice** to the endo assistant via email ([melody.moralesrojas@marquette.edu](mailto:melody.moralesrojas@marquette.edu)) (Cc'ing Dr. Ibrahim and Ms. Tara-Rae) **will lead to make up the rotation** at another time arranged by Ms. Tara-Rae.
  - In case a patient does not show up or when there are sudden changes to the endo clinic schedule, students do not need to make up the rotation. The PowerPoint from another rotation can be submitted in these rare instances.
  - **Please refrain from using your phone while assisting and using terms like bleach or chloroform in front of the patient.**

## Surgical Sciences Department Pre-doctoral Endodontics

- The PowerPoint template is uploaded in Axium (Links/User Documentation/Endo Documents/Rotation Template). This template includes medical history, dental history, radiographs, and clinical diagnosis. Email your PowerPoint to Mrs. Carmen Meza ([carmen.meza@marquette.edu](mailto:carmen.meza@marquette.edu) and CC Dr. Ibrahim [[mohemd.ibrahim@marquette.edu](mailto:mohemd.ibrahim@marquette.edu)]) within two weeks of completion of your rotation. Check your dashboard after receiving confirmation from Mrs. Meza to make sure it was recorded.
- Only **one** PowerPoint **for the D3 year** and **one for the D4 year** is required.
- Your feedback is important to us. Random students will be emailed to provide feedback about their rotation. Reply should be within 3 days after the rotation completion.
- This document will be uploaded to Axium (Links/User Documentation/Endo Documents/Rotation Guidelines).

Dr. Mohamed Ibrahim  
Director, Predoctoral Endodontics

Dr. Arndt Guentsch  
Chair, Surgical Science Department
