

MUSoD Endodontic Therapy Evaluation Form Diagnosis

Student Grade	Medical/Dental History	Faculty Grade
[]SAT	Review and presentation of the patient's medical / dental history is accurate and complete.	[]SAT
[]ACC	Minimal faculty involvement and assistance is necessary to complete the patient's medical / dental history.	11ACC
[]SUB	Significant faculty involvement, assistance and correction are necessary to complete the patient's medical / dental history.	[]SUB
[] DEF	The patient's medical history was not discussed and / or not reviewed.	[]DEF

Student Grade	Dental Evaluation	Faculty Grade
[]SAT	Conduct and complete an accurate intraoral exam of both hard and soft tissues focused on determining pulpal and periapical health. Pulpal and periradicular tests performed in a consistent and effective manner. Emergency conditions are identified and addressed that require immediate treatment.	[]SAT
	Minimal faculty involvement and assistance is required to complete an accurate and through dental evaluation.	[]ACC
[]SUB	Significant faculty involvement, assistance and correction are required to complete an accurate and through dental evaluation.	[]SUB
[]DEF	Intraoral exam and pertinent pulpal and periradicular tests are incomplete and / or not addressed.	[]DEF

Student Grade	Diagnosis	Faculty Grade
IICAT.	Consolidated all pertinent data from the history, symptoms, examinations and tests to form an accurate pulpal and periradicular diagnosis which is necessary for effective treatment. Pulpal and periradicular tests are applied, interpreted and undestood.	[]SAT
[]ACC	Minimal faculty involvement and assistance is necessary to determine an accurate pulpal and periradicular diagnosis from pertinent data.	[]ACC
[]SUB	Significant faculty involvement, assistance and correction are necessary to determine a correct pulpal and periradicular diagnosis from all pertinent data.	[] SUB
[] DEF	Unable to consolidate pertinent data from history, symptoms, examinations and tests to form a diagnosis from pulpal and periapical conditions.	[]DEF

Student Grade	Treatment Planning	Faculty Grade
[]SAT	Plan and explain an endodontic treatment plan that is integrated into the patients overall treatment. Appropriate alternatives are explained as well as indications for any adjunctive therapy	[]SAT
[]ACC	Minimal faculty involvement and intervention is necessary to design an appropriate endodontic treatment plan that is integrated into the patient's overall treatment.	[]ACC
[]SUB	Significant faculty involvement, assistance and correction is necessary to design an appropriate endodontic treatment plan that is integrated into patient's overall treatment.	[]SUB
[]DEF	Unable to formulate and explain an endodontic treatment plan and alternatives using appropriate terminology.	[]DEF

Critical Errors

Scoring Criteria

[] Critical lack of Judgement/Diagnostic Skills

[] Critical lack of Professional Demeanor

[] Critical lack of Treatment Management

[] Unethical conduct

[] Improper Infection Control Protocol
